*“I chose the bilingual program to practice and improve my English skills. I really enjoyed the international school, because I made friends from many nationalities. My host family was very nice and kind. We did many things together, e.g. cooking, playing board games, go walking, playing with cats and they also helped me learn Hungarian. During the program, I had the opportunity to learn about the Hungarian culture and also to travel abroad. I even did things that I had never done before! I will never forget my bilingual exchange year, it was a once in a lifetime opportunity!”*

# ***YFU Special Music Year Program***

*Music and music education are taken rather seriously in Hungary as Hungarians are very proud of their musical heritage. Hungarian music education is considered as one of the best in the world. Many Hungarian students study music in music high schools, music schools or in private lessons in afternoon.*

*With special music education program, you can also:*

- Study in a Hungarian music high school*
- Give concerts and participate in an orchestra*
- Have one-to-one instrumental lessons*

*“I chose to go to Hungary for the music program, which gave me the opportunity to visit a professional music school in Budapest, called Weiner Leó Zeneiskola. The school was a big part of my exchange, with an excellent education and it helped me grow in singing, playing the clarinet and also the piano. I met amazing people who became my close friends and I am in a good contact with the teachers.*

*Anoher part was my beautiful host family. Now I have brothers, dogs and a place where I am always welcome. I found a second home and a second family through my exchange and I am so thankful for that. From the first steps on Hungarian land and during my whole exchange year, YFU Hungary was by my side and watched my journey, always ready to help. I have a second home now, where music feels more special to me, and I found people who love music as much as I do. For me, it was the perfect decision.”*
